Application Materials

Cover Sheet – Students complete this sheet and include it with the application.

Student – Submit the following:

Statement of Research Interest (2-3 pages) – Provide a description of your general area of research interest, including a brief discussion of one or more types of research projects in that area that you may consider to be models. Rather than committing to a specific research project that you will pursue as part of the graduate seminar in which you plan to enroll, instead explain how you anticipate that participation in the seminar will help you develop your research interests and generate a focused proposal for a research project that you may pursue in the future.

Academic Record – Provide a copy of your current transcript (it may be unofficial).

Faculty Mentor – Submit the following:

Nomination Letter – Please evaluate the student’s potential for successful completion of the graduate seminar and focused proposal for a future research project; and detail your role in guiding the student, including how you will prepare the student, how you will guide the student throughout the course of the fellowship term, and how you will evaluate the student’s focused research proposal at its completion.

Student’s Signature – Please review the following and sign:

• I am aware that if I accept this fellowship, my financial aid package may be affected (please contact the Financial Aid office to determine any impact this award may have on your aid package).
• I agree to be enrolled as a full-time student at the University of Pittsburgh during the term for which the fellowship is awarded.
